OPERATION AND MAINTENANCE MATTERS

Prior to beginning discussion of CDI related items on the Agenda, Director Rubic made a motion to further amend the agenda and begin public comment. There was no second to the motion. The motion failed and the Board began discussion of CDI Snow Removal updates.

Snow Removal Updates: Mr. France and Mr. Draper provided an update to the Board about snow removal and addressed the many concerns with recent storm related issues, missed areas, icy conditions, and refreezing. Mr. France discussed the unexpected nature of the storm and the challenges experienced with the allocated equipment being inadequate to effectively address the heavy, wet snow. CDI also discussed their plans to address snow events moving forward and their plans for the storm forecast for the evening of the meeting. Director Rubic brought up numerous concerns with snow removal throughout the 2022/2023 season. Director Rubic raised concerns with CDI's vehicles compacting snow on paths prior to the snow being removed, sidewalks and paths not being cleared edge-to-edge, melting and refreezing leading to icy conditions, and piles of snow being piled in the accessible parking spaces in District parking lots. Director Rubic also expressed concerns that several areas were entirely missed by CDI and concerns that requests to address these areas were not adequately addressed. CDI responded that they were still learning the property and requested further direction and approval from the Board related to ice patrol and following up on storms.

Following discussion, upon motion duly made by Director Glass, seconded by Director Brown and, upon vote, unanimously carried, the Board approved CDI to return to the District in days following a storm to apply additional ice melt and shovel as needed to address ice hazards and other concerns.

Deadline for CDI to Convert Vehicles to Electric Vehicles for Trash Removal: Mr. France updated the Board and informed them that Electric Vehicles are still being researched. Mr. France stated that the goal was to have Electric Vehicles in place

and ready to go by April 1, 2023. The Board agreed that this was reasonable and directed CDI to proceed with the April 1, 2023 deadline.

Public Comment: Following discussion, upon motion duly made by Director Rubic, seconded by Director Glass, and upon vote, unanimously carried, the Board approved opening public comment specifically to discuss concerns with snow removal before proceeding with the rest of the agenda.

Mr. Helm addressed the Board to express concerns with the “abysmal” snow removal for all storms in 2022 and 2023. Mr. Helm expressed concerns about slick/icy areas not being addressed, a lack of response from CDI and SDMS about hazards, and inadequate equipment being used to remove snow contributing to problems. Mr. Helm also stated that the snow removal on sidewalks and streets was unacceptable, and the residents were not getting the value for their tax money. He also expressed concerns about areas in the District that do not receive sunlight and need additional ice melt treatments.

Graffiti Removal: Mr. Draper provided an update to the Board including recent efforts to paint over vandalized areas and remove graffiti from the Skate Park. Director Rubic indicated that CDI needed to do a better job removing graffiti quickly and indicated that there were areas that were missed and or needed to be readdressed. Director Rubic also stated that graffiti was a bad billboard for the District and should be addressed quickly. The Board confirmed their preference that CDI attempt to cover graffiti quickly, even if weather conditions are not ideal for paint. CDI agreed to continue this practice and shared with the Board that they recently received new cleaning supplies that should better address stubborn areas. CDI confirmed that these new products are eco-friendly and will provide specifications to the Board. The Board also gave direction to SDMS to file Criminal Mischief reports with the Sheriff’s Office and coordinate removal with CDI upon a report being filed. SDMS to create a procedure for Board review and approval.

Chatfield Farms HOA Scope Addition to Snow Removal: CDI and the Board discussed providing options to HOA’s in the District to contract/partner with CDI for snow removal. Attorney Ross reviewed the contract/agreement language with the Board. The Board directed SDMS to reach out HOA’s with information about how to contact CDI to pursue a potential agreement.
