

**Brendan Coupe**

I have lived in the Roxborough Village community since 2017.

I am currently retired. I have a degree in Chemical Engineering and worked in that field for 20 years. After that I moved into Information Technology where I was the Director of IT.

I joined the Chatfield Farms West (1b) HOA board in 2017. I served on that board for about 5 years. I joined the Roxborough Village Metro District board in the fall of 2024 when one of the board members resigned before their term expired.

I would like to continue using the knowledge I have gained working on the metro district board over the past 8 months to help improve our community.
