Bill Barr; Metco Landscaping Scott Barnett; Mulhern MRE, Inc.

Ben Kelly; Strategic Communications Consultant

Kimberly Armitage; YMCA

#### <u>CALL TO ORDER</u> The meeting was called to order at 6:04 p.m.

DECLARATION OF
QUORUM/DIRECTOR
QUALIFICATIONS/
DISCLOSURE MATTERS

A quorum was declared present. No new conflicts were disclosed.

#### APPROVE AGENDA

Upon a motion duly made by Director Prysby, seconded by Director Glass, and upon vote unanimously carried, the Board approved the Agenda as presented.

#### PUBLIC COMMENT and/or

There was no public comment.

#### **GUESTS**

### CONSENT AGENDA A. Consider Approval of the December 15, 2020 Special Meeting Minutes

B. Review and Accept the Cash Position and Property Tax Schedule for November

C. Review and Consider Approval of Current Claims,
Approve Transfer of Funds, Ratify Payment of Autopay
Claims and Ratify Approval of Previous Claims

Upon a motion duly made by Director Wagner, seconded by Director Glass, and upon vote unanimously carried, the Board approved the Consent Agenda, as presented.

#### FINANCIAL MATTERS

A. Other - None.

#### **DISCUSSION AGENDA**

#### **DIRECTOR MATTERS** A. Environmental Committee Update

Director Glass reviewed the Environmental Committee report with the Board.

#### B. Other

Director Prysby indicated the pedestrian crossing lights have been installed on Waterton Canyon Road.

#### MANAGER MATTERS Master Plan

#### A. <u>Feasibility Follow-Up</u>

i. Feasibility Study Follow-Up

Ms. Armitage provided an update on the feasibility rollout plan.

#### ii. Communications Follow-Up by Ben Kelly

Mr. Kelly provided an update on the Rec Center Task Force, referencing the memo he prepared for the packet.

#### B. <u>Spillway Follow-Up</u>

i. <u>Spillway Schedule, Douglas County Follow-Up</u> and Budget

Mr. Barnett provided an update to the Board regarding the spillway, noting the drawings have been submitted to Douglas County.

Mr. Barnett reviewed the Chavez proposal for concrete installation in the amount of \$55,967.00. Mr. Barnett

reviewed the 53Corporation proposal for spillway repairs and related services in the amount of \$39,249.00. Mr. Barnett also noted erosion control measures would have to be added to one of the contracts for approximately \$10,000.00.

Following discussion, upon a motion duly made by Director Prysby, seconded by Director Cook and, upon vote unanimously carried, the Board approved the Chavez proposal in the amount of \$55,967.00, the 53 Corporation proposal in the amount of \$39,249.00.

#### C. Update on New Playground Design

No update was provided. No action was taken.

#### D. Other

Ms. Jones discussed the issue of Imperial Park and the use of remote-control race cars and dirt bikes. The Board discussed whether offering a different location for the activity would help curb improper use of Imperial Park. Ms. Jones will follow up with Mr. Wenskoski to determine if there is a possible way to include a track for remote control race cars in the new park design. Director Glass will forward information to Ms. Jones to share with Mr. Wenskoski.

#### **LEGAL MATTERS**

A. Update Regarding Final Water Due Diligence Filing and Executive Session Pursuant to C.R.S. Section 24-6-402(4)(B) and for the Purpose of Receiving Legal Advice on Special Legal Questions, if requested

No action taken.

#### B. Update on Emergency Disaster Declaration

Upon a motion duly made by Director Prysby, seconded by Director Cook and, upon vote unanimously carried, the Board ratified the Continuation of the Emergency Disaster Declaration.

#### C. <u>Drone Use and Rules and Regulations</u>

Ms. James reviewed the email she sent to the Board prior to the Board meeting with proposed language to address drone use in the rules and regulations. Following discussion, upon a motion duly made by Director Glass, seconded by Director Cook and,

upon vote unanimously carried, the Board approved option 1 as outlined in Ms. James' memo.

### D. <u>Update on Water Line Project for Roxborough Water and Sanitation District</u>

Ms. James provided an update to the Board.

#### E. Update on Other Encroachment Issues

- i. Staircase
- ii. Pebble Path
- iii. Other

Ms. James provided an update on the encroachment issues listed previously. Ms. James will send another letter to the "pebble path" residence requesting its removal. Ms. James will also send letters addressing the hardscape/staircase and several encroachments identified in a recent Environmental Committee Report.

# F. <u>Update on Arrowhead Shores HOA Dispute with</u> <u>Developer over Access Easement to Crystal Lake Park</u> Area

Ms. James reviewed the Arrowhead Shores HOA dispute with the Developer over the access easement to Crystal Lake Park with the Board to keep the Board informed. No action was taken.

#### G. Open Space Request from Chatfield Farms 1A HOA

Ms. James reviewed the open space request from Chatfield Farms 1A HOA. The HOA requested the District take over maintenance of between 1 and 4 Tracts owned by the HOA, one of which is impacted by upcoming roadwork by the CAB at Rampart Range Road and Waterton Road. Following discussion with the Board, the Board declined to take action or accept any maintenance responsibility of the Tracts.

### H. Ratify Approval of Roxborough Water and Sanitation District Request to Access Easement for Sewer Repairs

Ms. James reviewed the Roxborough Water and Sanitation District request to access an easement for sewer repairs with the Board. Following discussion, upon a motion duly made by Director Prysby, seconded by Director Wagner and, upon vote unanimously carried, the Board ratified approval of the Roxborough Water and Sanitation District request to access an

easement for sewer repairs which Director Brown had approved on an emergency basis. The Board asked Ms. James to ensure restoration work occurred and in the manner of seeding for native grass as applicable.

I. Review and Consider Approval of Ark Ecological Services Proposal for 2021 Open Space Management

Following review, upon a motion duly made by Director Prysby, seconded by Director Glass and upon vote unanimously carried, the Board approved the Ark Ecological Services Proposal for 2021 Open Space Management. The Board requested Ms. Jones obtain an update on the overall goal of getting native grass to the maintenance stage.

J. Review and Consider Approval of Resolution 2021-01-01 Designating Location for Posting of 24-Hour Notice for Year 2021

Following review, upon a motion duly made by Director Prysby, seconded by Director Wagner and, upon vote unanimously carried, the Board approved Resolution 2020-01-01 Designating Location for Posting of 24-Hour Notice for Year 2021.

K. Other – None.

#### **ENGINEERING MATTERS**

#### A. <u>Update on Little Willow Creek Handrail</u>

Mr. Barnett reviewed the recommendation provided to the Board regarding Little Willow Creek Handrail. Following discussion, the Board agreed to delay efforts per Mr. Barnett's recommendation.

B. Update on Imperial Park Use and New Fence Installation

This item was discussed earlier in the meeting and is noted under the Manager Matters update.

C. Other – None.

#### LANDSCAPING MATTERS

#### A. <u>Bailey Tree Update via Written Enclosure</u>

The Board reviewed the update provided by Bailey Tree.

#### B. <u>Metco Landscape Report</u>

Mr. Barr reviewed the Metco Landscape Report.

|                 | i. <u>Review and Consider Approval of Proposals</u> – None.   |
|-----------------|---|
|                 | C. <u>Other</u>   |
|                 | The Board discussed the roadway work by the Sterling Ranch CAB/Douglas County in the median to the south of Waterton Canyon Road requested that Mr. Barnett let the County know that the Board preferred that stamped concrete be used to provide a buffer. |
| OTHER BUSINESS  | A. Confirm Quorum for February 16, 2021 Special Meeting via ZOOM  |
|                 | A quorum was confirmed.   |
| ADJOURNMENT     | Upon a motion duly made by Director Wagner, seconded by Director Prysby, the Board adjourned the meeting at 8:12 p.m.   |
|                 | Respectfully submitted,   |
|                 | By:Calvin Brown, President  |
| Attest:         |   |
| By:Ed Wagner, S | ecretary  |

#### **Environmental Committee Updates**

#### Native Plant Nursery:

We now have official permission from the school district to build a greenhouse on their property. At this point, we just need to iron out some details with the school's project manager about maintenance and water connections. Once that's complete, we'll need to draft a license agreement. Once the paperwork is signed, we can get going on ordering a greenhouse.

#### Spring Tree Plantings:

We met with Bill to consider what we need planted this upcoming spring. We're going to focus on adding some trees along Waterton Rd with an eye toward a larger plan to have a windbreak north of the soccer field. The windbreak will need to be done in conjunction with CDOT and Douglas County, so we're going to defer that for now until we have more time and room in the budget.

#### Ark Ecological Services

Condition of the Roxborough Village Open Space After the 2020 Management Season.

The overall condition of the open space has improved greatly over the last 8 years since Ark started managing the open space in 2013. The diversity of weeds has been greatly reduced throughout all community types including grasslands, foothill shrublands, riparian woodlands, riparian shrublands, riparian wetlands, and other man-made plant communities in the open space. Herbaceous plants managed include over 55 broadleaf species and about five annual and one perennial grass species as well as a few species of invasive shrubs and small trees.

Broadleaf weeds were the primary focus of our activities over the first 5-6 years and we have a also been working on reducing cheatgrass invasions throughout the site, much of which is now found mostly on the slope of the hogback. Ecological restoration was done in areas where weeds once dominated, and needs to continue in the bare ground areas found mostly along roads. These restored areas can better compete with invading plant species.

Areas dominated by grasses (grasslands and prairies) are easier to manage mostly due to: 1) accessibility; 2) there are more of a variety of herbicides that can be used to control all species of weeds present; and 3) because grasses are fairly competitive. So these communities generally now have the fewest weeds. Roadside grasslands and trailside grasslands, as well as those that back to homes, generally receive more disturbance and so generally have more weeds and sometimes more bare ground than other grassland communities.

The foothill shrublands west of most of the homes, although somewhat more difficult to manage, are in good to excellent condition. Shrublands that are on the slopes west of the homes generally have cheatgrass as the primary invasive species, but are also somewhat susceptible to weeds (e.g. Knapweed (tumble weed), Prickly Lettuce ( seeds float in the wind)) blowing in from the surrounding unmanaged land. The movement of people and wildlife along and through the hogback also continues the spread other weeds into these areas. These areas need to continue to be managed to maintain the improved condition.

Because riparian plant communities have a source of water, wildlife are attracted to them and many species of weeds are transported by the wildlife as they move through the vegetation. Also, when stream levels rise due to high water or flooding, weed seeds can move in to the Roxborough riparian open spaces from untreated upstream prosperities.

Because of the constant influx of seeds on these sites from the surrounding unmanaged open space areas, resident properties, and bodies of water that move through the open space, weed management will continue to be needed. The long term difficulty of eradicating deep-rooted perennial species such as Canada Thistle, Bindweed, and Leafy Spurge will continue as well in part due to their locations around woody vegetation, or just adjacent to water, which limits the herbicides choices. Although there are good and effective choices, some of the best and most active products cannot be used around

woody vegetation because they may kill or damage desirable trees and shrubs by uptake via the roots of these woody plants. Also, some herbicides cannot be used near water or in high water tables due to the possibility of ground or surface water contamination. Hence, these good and effective herbicides take longer to control the target weeds, but do less damage to other aspects of the plant community and overall ecosystem.

Within about 2-3 years Ark should be at a "maintenance level" approach to weed management. Most of the work will be on the boundaries of the property, along areas that have some level of human disturbance or disturbance by wildlife and other areas like frequently mowed areas that are susceptible to re-infestation or continued disturbance. Disturbance includes the pond shoreline areas and banks of the creek where water levels fluctuate and adjacent ground water may also fluctuate. Thus riparian communities will be a large chunk of the management work that continues in this phase. Additionally, the edges between two plant communities are often places where continued management is needed.

#### **Ark Ecological Services**

Condition of the Roxborough Village Open Space After the 2020 Management Season.

The overall condition of the open space has improved greatly over the last 8 years since Ark started managing the open space in 2013. The diversity of weeds has been greatly reduced throughout all community types including grasslands, foothill shrublands, riparian woodlands, riparian shrublands, riparian wetlands, and other man-made plant communities in the open space. Herbaceous plants managed include over 55 broadleaf species and about five annual and one perennial grass species as well as a few species of invasive shrubs and small trees.

Broadleaf weeds were the primary focus of our activities over the first 5-6 years and we have a also been working on reducing cheatgrass invasions throughout the site, much of which is now found mostly on the slope of the hogback. Ecological restoration was done in areas where weeds once dominated, and needs to continue in the bare ground areas found mostly along roads. These restored areas can better compete with invading plant species.

Areas dominated by grasses (grasslands and prairies) are easier to manage mostly due to: 1) accessibility; 2) there are more of a variety of herbicides that can be used to control all species of weeds present; and 3) because grasses are fairly competitive. So these communities generally now have the fewest weeds. Roadside grasslands and trailside grasslands, as well as those that back to homes, generally receive more disturbance and so generally have more weeds and sometimes more bare ground than other grassland communities.

The foothill shrublands west of most of the homes, although somewhat more difficult to manage, are in good to excellent condition. Shrublands that are on the slopes west of the homes generally have cheatgrass as the primary invasive species, but are also somewhat susceptible to weeds (e.g. Knapweed (tumble weed), Prickly Lettuce ( seeds float in the wind)) blowing in from the surrounding unmanaged land. The movement of people and wildlife along and through the hogback also continues the spread other weeds into these areas. These areas need to continue to be managed to maintain the improved condition.

Because riparian plant communities have a source of water, wildlife are attracted to them and many species of weeds are transported by the wildlife as they move through the vegetation. Also, when stream levels rise due to high water or flooding, weed seeds can move in to the Roxborough riparian open spaces from untreated upstream prosperities.

Because of the constant influx of seeds on these sites from the surrounding unmanaged open space areas, resident properties, and bodies of water that move through the open space, weed management will continue to be needed. The long term difficulty of eradicating deep-rooted perennial species such as Canada Thistle, Bindweed, and Leafy Spurge will continue as well in part due to their locations around woody vegetation, or just adjacent to water, which limits the herbicides choices. Although there are good and effective choices, some of the best and most active products cannot be used around

woody vegetation because they may kill or damage desirable trees and shrubs by uptake via the roots of these woody plants. Also, some herbicides cannot be used near water or in high water tables due to the possibility of ground or surface water contamination. Hence, these good and effective herbicides take longer to control the target weeds, but do less damage to other aspects of the plant community and overall ecosystem.

Within about 2-3 years Ark should be at a "maintenance level" approach to weed management. Most of the work will be on the boundaries of the property, along areas that have some level of human disturbance or disturbance by wildlife and other areas like frequently mowed areas that are susceptible to re-infestation or continued disturbance. Disturbance includes the pond shoreline areas and banks of the creek where water levels fluctuate and adjacent ground water may also fluctuate. Thus riparian communities will be a large chunk of the management work that continues in this phase. Additionally, the edges between two plant communities are often places where continued management is needed.

#### MEMORANDUM

#### FEBRUARY 10, 2021

TO: ROXBOROUGH VILLAGE METRO DISTRICT; CALVIN JONES, ED WAGNER – METRO DISTRICT REC CENTER COMMITTEE; ANNA JONES

FR: BEN KELLY

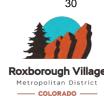

RE: UPDATE ON REC CENTER TASK FORCE & COMMUNICATIONS

Here's a summary on the work of the Roxborough Village Metro District Rec Center Task Force.

- We had an impactful set of topics for the second Task Force meeting, which focused on "Facility Programming": the features, amenities, and services that could be included in a facility.
- Perkins & Will—the architects on board to prepare conceptual design options—opened the
  meeting with a review of the Community Park site's challenges and opportunities. The key
  challenge of the park's slope also presents opportunities for design. For example, the views across
  the park to the hogback create a beautiful setting, and the site allows for the building to be built
  into the slope and protect westerly views for the residential area across Rampart Range Road.
- Kimberly Armitage (YMCA and lead of the Feasibility Study) reviewed the community research and market research that's been conducted. The research of residents of Roxborough Village and in the market area within an 8-mile radius provides insights into their priorities and preferences. The charts, graphs, data and key findings from the research are provided in the slide deck posted on the Rec Center Task Force page on the Metro District website (<a href="https://www.roxboroughmetrodistrict.org/rec-center-task-force">https://www.roxboroughmetrodistrict.org/rec-center-task-force</a>).
- A key finding from the research is that there is high interest in both fitness-related features and social spaces for non-fitness activities that build community (classes, clubs, group meetings, teaching kitchen). The importance of designing a facility with versatile spaces is that they can serve multiple needs/demographics, function as a "third place" (beyond home and work/school) for the community, and help ensure financial sustainability in the long-term.
- The Task Force discussion generated some very important questions that we are going to focus on in future meetings:
  - O What is the estimated market for membership for people who a) live outside the Metro District, and b) would be interested in using the Roxborough Village facility if the services, amenities and features were attractive? (The data from the research indicated that 4 out of 5 survey respondents in Roxborough Village said they are "very likely" or "extremely likely" to join as a member, and 34 percent of respondents outside of Roxborough Village said they are likely to join.) The Task Force commented that the data and financial modeling on that membership structure is an important future topic.

- What are the design features for some of the main features under consideration—pool, gymnasium, fitness center—that make the spaces versatile and financially viable? The construction costs, operating costs and revenue opportunity (membership retention and program) are key parts of the decision-making.
- The next Task Force meeting is scheduled for March 1 this will be the first of two meetings in March (the other is March 22).
- The presentation information from the January and February task force meetings, plus meeting summaries, are posted on the Metro District's website at <a href="https://www.roxboroughmetrodistrict.org/rec-center-task-force">https://www.roxboroughmetrodistrict.org/rec-center-task-force</a>.
- Any questions and comments on the Rec Center Task Force can be sent to <u>info@roxboroughmetrodistrict.org</u> and we will respond within one business day. <u>We encourage</u> members of the community to submit questions, ideas and concerns.

#### Roxborough Village Metro District: Rec Center Task Force **Meeting Summary**

The kick-off meeting of the Roxborough Village Rec Center Task Force was held on Monday, January 11. The presentation provided to the Task Force at this meeting can be found at www.roxboroughmetrodistrict.org/rec-center-task-force. Here is a summary of the meeting:

#### **Task Force Background**

The kick-off meeting started with introductions of task force members, comprised of 14 Roxborough Village residents who represent a cross-section of the community. Two Metro District board members are non-voting, ex officio members of the Task Force. As an advisory group, the Task Force will meet six times between January and May, and make recommendations to the Metro District board of directors.

#### Master Plan & Feasibility Study Background

An overview was provided of the Roxborough Village Master Plan, a community-led process completed in 2020 that establishes the community's vision for the open space, parks and other areas that are the responsibility of Metro District.

The Master Plan's community engagement included surveys and open houses revealed that a community center, pool and gathering place are highly desired amenities. Additional Master Plan analysis looked at two potential sites for a new community center and pool. Community Park is the preferred site—it is centrally located, highly accessible, has great views and site features, and is close to park and open space amenities.

The Metro District commissioned a Rec Center Feasibility Study, which includes next-level, in-depth analysis via community surveys, site analysis and facility programming. A follow-up survey showed 4 out of 5 survey respondents in Roxborough Village said they are "very likely" or "extremely likely" to join a Roxborough facility as a member.

#### **Financing**

The Task Force reviewed the main points of the District's property tax mill levies, which would likely be a primary financing source for a rec facility. The District's debt mill levy is scheduled to conclude at the end of 2021. With that development, there is an opportunity to take the mill levy that has been in place for nearly 30 years, and instead finance an amenity such as a recreation facility—that serves the community's goals.

The Metro District board could decide this summer to refer a ballot measure on rec center financing to the November 2021 election. Roxborough Village voters will have the final say.

#### **Additional Fact-Finding**

In addition to the Master Plan, the Metro District has commissioned a feasibility study to look at the potential features, programs and services in a facility that meet the community's needs and desires. An architecture firm has been brought on board to perform conceptual design of the Community Park site.

Also, the Metro District board has toured other recreation and community centers in October 2020 to learn more about these facilities.

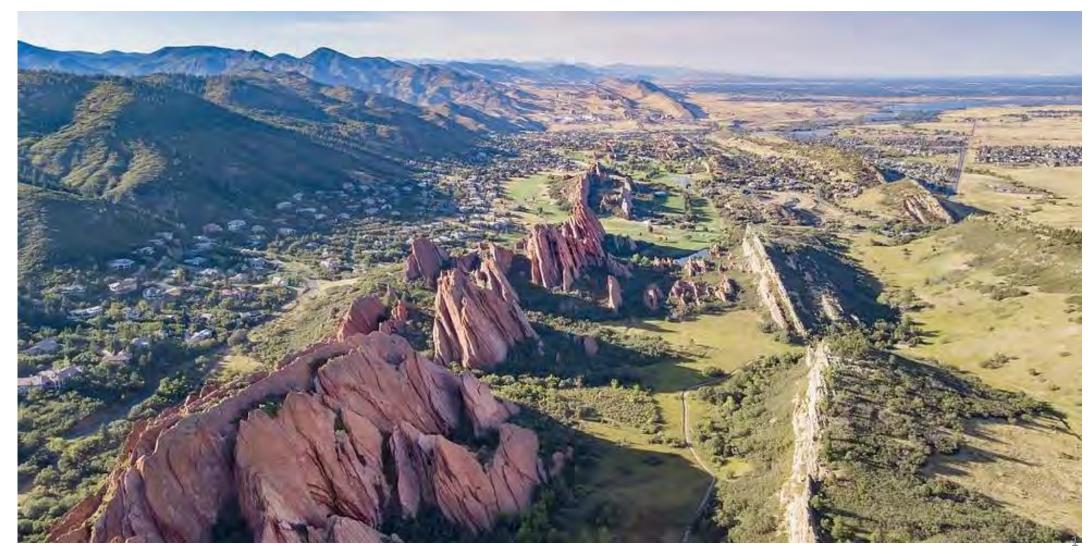

#### What's Next

The Task Force will meet in February to learn more about facility programming, and what types of features, options and amenities are desired and make the most sense for Roxborough Village and the proposed site.

For more information, visit the Rec Center Task Force page at www.roxboroughmetrodistrict.org/rec-center-taskforce. Questions and comments can also be sent to info@RoxboroughMetroDistrict.org.

# Programming & Facility Options

Site Challenges & Opportunities

Community Needs, Preferences & Facility Size

**Facility Program Options** 

## **Community Needs**

Within 10-mile radius of Roxborough Village, there are approximately 10 fitness and health facilities.

In Feasibility Study survey, 38% of respondents do not use area facilities for these top reasons:

- "No places close to my home" (35%)
- "No time" (11%)
- "Too expensive" (8%)

Roxborough Village youth are active: 93% of parents in survey said their children participate in activities.

- Activities children participate in: sports (60%), music (31%), swim (31%), art class (22%), fitness (22%), dance (20%)
- Many of these programs are done at the child's school.

# Feasibility Study Key Findings

4 out of 5 survey respondents in Roxborough Village said they are "very likely" or "extremely likely" to join as a member.

Health-related activities are highly desired—but non-fitness activities, social gathering, and community-building spaces are also highly desired. A combination will differentiate Roxborough Village's facility in the market.

Key areas to capitalize on the growth potential and differentiate the facility as an "experience destination" resource in the community:

- •Offer a variety of activities at different life stages, and across different interests and age groups.
- •Activities need to include **both physical and non-physical activities**, and provide opportunities for communities to connect and interact.
- •Activities should be both **structured/organized** and **informal/organic**.
- •Facility should be designed to allow for **social/hang-out spaces**.

## **Guiding Principles:**

- •Sustainable and relevant for long-term
- Multi-dimensional to meet ranges of interests and schedules under one roof
  - Maximize operational efficiencies and return on investment

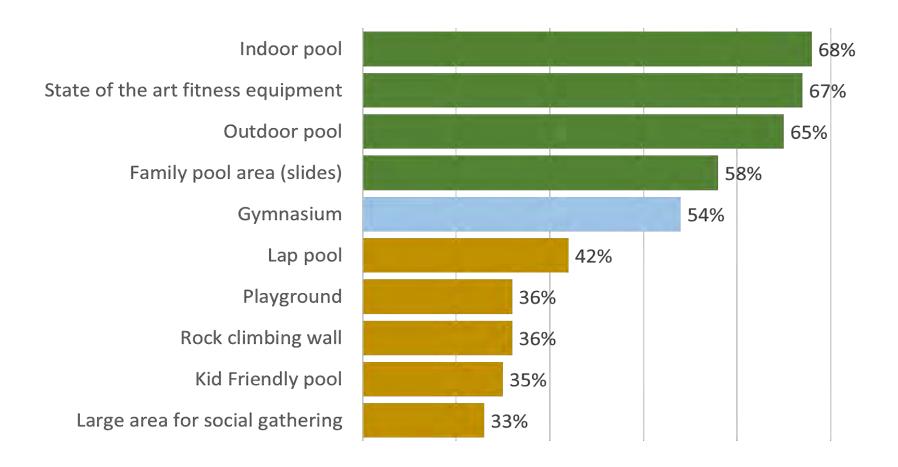

— COLORADO —

# Feasibility Study Community Survey: Key Findings

Survey respondents identified their most desired amenities for community/rec center

# Roxborough Village Preferences

Community research reveals preferences on fitness/activity amenities, non-fitness activities, and characteristics of the facility that attract and retain users and members.

1

## **HIGHEST RATED AMENITIES**

Indoor pool 68% > outdoor pool 65% (pool variations—lap pool, kid-friendly pool, family pool area with slides—also rated highly)

State-of-the-Art Fitness Center 67%

Gymnasium 54%

Rock Climbing Wall 36%

Large social/gathering area 33%

2

# HIGHEST RATED NON-PHYSICAL ACTIVITIES (adults & seniors)

Nutritional Cooking Classes, Art Classes

Club gatherings (book, travel, card game), Family Fun Night, Trivia Game, Additional Classes (Music, Computer, Spanish)

3

## **HIGHEST RATED QUALITIES**

Convenient to home

Non-intimidating environment

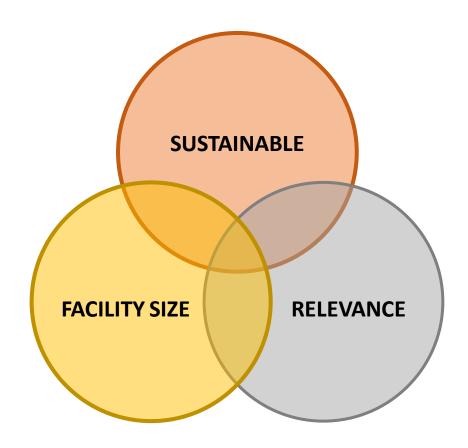

Convenient parking

Inclusive /welcoming to all

# Facility Size

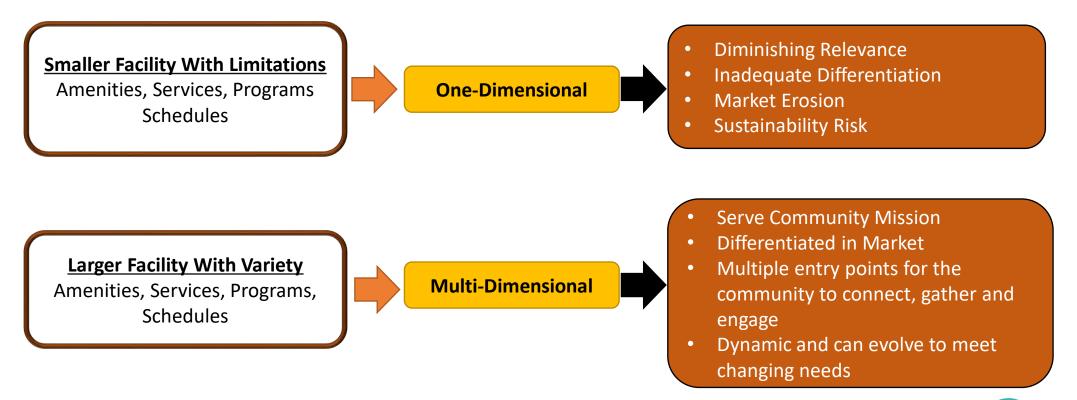

The relevance and sustainability of a community/recreation facility is directly related to the facility size.

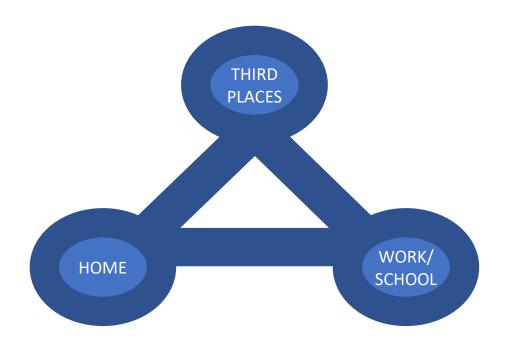

## Multi-Dimensional > One Dimensional

The optimal size for a successful and sustainable recreation & community center is tied to meeting multiple household needs

# Concept of "Third Places" as Community-Builders

"...the most effective [locations] for building real community seem to be physical places where people can easily and routinely connect with each other: churches, parks, recreation centers, hairdressers, gyms and even fast-food restaurants."

"Third Places as Community Builders," S. Butler, C. Diaz - Brookings Institute [link]

# Discussion

- Is the research on track, aligned with community needs?
- What programs and activities should be available:
  - With membership?
  - As fee-based?

# Programming & Facility Options

Site Challenges & Opportunities

Community Needs, Preferences & Facility Size

**Facility Program Options** 

# Facility Program Options

- Thinking and planning in three dimensions:
  - Construction cost
  - Operating cost
  - Revenue opportunity
- What are your top priorities to be included in this facility?

| * = incentive for membership | SPACE INFO  | CONSTRUCTION COSTS Per square foot       | OPERATING COSTS             | REVENUE POTENTIAL | SIZE<br>RECOMMENDATION<br>square feet |
|------------------------------|---|--|-----------------------------|-------------------|---------------------------------------|
| Indoor Pool*                 | Year-round, high use, high energy use, specialized equipment  |  | ***                         | ***               | 6,000 – 9,000                         |

- Roxborough Community Research Feasibility Study, Summer 2020

## Feasibility Study – Site Selection Analysis

| SITES                                    | PROS  | CONS   |
|--|---|--|
| NA N | district owned lot size current recreation area synergy with existing use and functions county zoning & ease of development visibility / view / exposure central location adjacent to main thoroughfare access no lost tax revenue return on investment | substantial earthwork requires creative design around existing topography overhead power lines |

## Feasibility Study – Site Selection Analysis

#### **FINDINGS**

Our analysis has resulted in recommending the site referred to as the "Park" for the future recreation center. This central location is currently a recreation area that is owned by the district. This site has risen to the top for several reasons. The most important reason is the overall impact this location can have on the community as a whole.

This site offers physical connections to two schools and most of the residents through an extensive trail system. It also acts as an anchor for a lifestyle of leisure as it is already home to a skate park, ball field, basketball hoop, tennis courts, scenic wetlands, bike trails, open space and parking. Advancing the development of this area into a modern recreation facility will ensure the protection of this space and foster a mindset of wellness and happiness throughout the community. These intangible factors, in our opinion, far outweigh quantifiable variations between one site and another.

☐ 27% - Movie at a theatre

35%
Playing
Games

- ☐ Although exercise is a dominant activity that families wish they could do together more frequently, the non-physical activities that allow people to stay connected is equally important, and something to keep in mind when designing the rec center.
- Another insight that can be inferred beyond the space needed for these types of activities is the environment—the atmospheric feeling that the space produces. (e.g., warm, safe, comfortable)

## NON-PHYSICAL ACTIVITIES

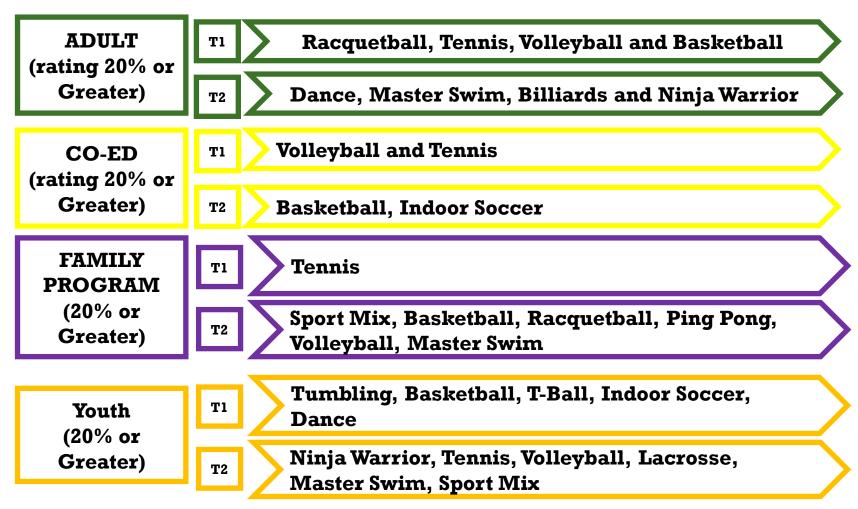

Residences of Roxborough Village show high interest in non-physical activity programs. Identifying those that score T1 and T2 based on statistical significance (at least 20% of residents indicating interest) we observe the following based on each consumer group.

29

## SPORT PROGRAM DESIRED

Overall, Roxborough Village is an active community that desires multiple activities offered in a recreation center. Below represent the T1 and T2 items (those that were rated significantly higher than others by category).

### **AMENITIES DESIRED**

## (NON-ROXBOROUGH AND ROXBOROUGH VILLAGE COMMUNITY)

| Amenities in H&W Facility  | Non-Rox. Village<br>Comm.<br>(n=223) |            |

| Computer Lab / Workstation   | 13%                                  |            |
| Other (Please specify)   | 5%                                   |            |

Overall, the amenities desired among the Roxborough Residents and the surrounding area are relatively similar, highlighting that no additional accommodations are needed to attract additional people to become members of the recreation center.

**About 20%-25% in both** markets express interest in food options, as well as a chef kitchen.

Food is a key social connector and extends an entity beyond a fitness / h&w center.

Roxborough Village Metro District Manager's Memo 2-16-2021

#### Dear Board,

- I recently found a binder in a desk that belonged to a former CLA employee that contained Roxborough Village MD park reservation checks dated within the past 3 years that were not deposited.
- The checks were all dated between 2017 and 2019.
- While some were security deposit checks that should have been shredded, several were park reservation fee checks that should have been collected.
- Upon finding this binder, I worked with CLA accounting, Anna, and Katie to determine a solution.
- We were able to collect \$1,200 in outstanding fees, but \$1,525 of funding remained outstanding and uncollectable.
- CLA will reimburse RVMD for the outstanding amount on the February invoice.
- Natalie, Anna and I have revisited our park reservation process to ensure that this doesn't happen again.

Sincerely,

Nic Carlson

Re: Encroachment into a District owned open space parcel adjacent to Roxborough Village

Filing No. 14B

By 7434 Eagle Rock Drive, Littleton, Colorado 80125

Lot 54, Roxborough Village #14B

Dear Mr. Jensen:

I am District Legal Counsel for Roxborough Village Metropolitan District, the owner of the 61.363 acre open space parcel adjacent to Roxborough Village #14B. It has recently come to our attention that you have added rocks along your back fence outside the boundary of your lot and in our open space. An aerial photograph is enclosed to illustrate this encroachment.

The District's policy is as follows:

Encroachments onto property maintained by the District is prohibited. These areas must be free of obstructions to permit snow removal, grass mowing, to promote public safety, and to maintain a uniform appearance of the open space.

The District also has Rules and Regulations that state that it is unlawful for any person "to construct, place, or maintain any kind of road, trail, structure, sign, fence, marker, enclosure, communication equipment or other improvement within any Parks or Open Space without written approval from the District Manager."

Please remove the rocks immediately. If a District contractor is required to remove the rocks, you will be billed for the service.

If you have any questions about this policy, the Rules and Regulations, or about the District's property boundaries, please call Anna Jones, District Manager at (303) 793-1478.

Thank you in advance for your cooperation.

Sincerely,

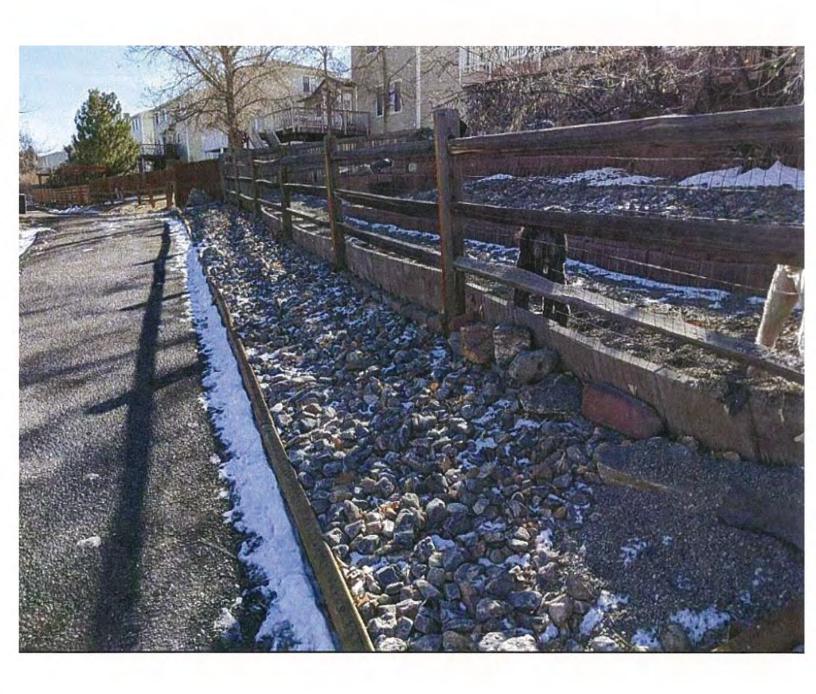

FOLKESTAD FAZEKAS BARRICK & PATOILE, P.C.

Re: Encroachment into a District owned open space parcel adjacent to Roxborough Village

Filing No. 14B

By 7412 Eagle Rock Drive, Littleton, Colorado 80125

Lot 52, Roxborough Village #14B

Dear Mr. and Mrs. Boyce:

I am District Legal Counsel for Roxborough Village Metropolitan District, the owner of the 61.363 acre open space parcel adjacent to Roxborough Village #14B. It has recently come to our attention that you have added a raised mulched area surrounded by stones along your back fence outside the boundary of your lot and in our open space. An aerial photograph is enclosed to illustrate this encroachment.

The District's policy is as follows:

Encroachments onto property maintained by the District is prohibited. These areas must be free of obstructions to permit snow removal, grass mowing, to promote public safety, and to maintain a uniform appearance of the open space.

The District also has Rules and Regulations that state that it is unlawful for any person "to construct, place, or maintain any kind of road, trail, structure, sign, fence, marker, enclosure, communication equipment or other improvement within any Parks or Open Space without written approval from the District Manager."

Please remove the raised mulch area surrounded by stones immediately. If a District contractor is required to remove the mulch and stones, you will be billed for the service.

If you have any questions about this policy, the Rules and Regulations, or about the District's property boundaries, please call Anna Jones, District Manager at (303) 793-1478.

February 11<sup>th</sup>, 2021

Scott Barnett 188 Inverness Drive West, Suite 140 Englewood, CO 80112

Dear Mr. Barnett,

Below you will find the recommended proposal for stocking triploid grass carp in all ponds at Roxborough Valley Metro District. Please note, triploid grass carp are sterile per Colorado Parks and Wildlife law. These fish will help consume the excessive vegetation in the resources. All the fish are tested annually and are certified disease free.

Table 1: Triploid Grass Carp Stocking Recommendation

| Resource     | Species                | Size  | Number | Unit Cost    | Cost       |
|--------------|------------------------|-------|--------|--------------|------------|
| Heron Pond   | Triploid Grass<br>Carp | 8-10" | 55     | \$18.00 each | \$990.00   |
| Tadpole Pond | Triploid Grass<br>Carp | 8-10" | 85     | \$18.00 each | \$1,530.00 |
| Prebies Pond | Triploid Grass<br>Carp | 8-10" | 12     | \$18.00 each | \$216.00   |
| 7-Acre Pond  | Triploid Grass<br>Carp | 8-10" | 60     | \$18.00 each | \$1,080.00 |
| Subtotal     |                        |       |        |              | \$3,816.00 |
| Delivery Fee | ·                      |       |        |              | \$742.40   |
| Total        | ·                      |       |        |              | \$4,558.40 |

<sup>\*</sup>all fish prices and availability subject to availability at the time of delivery

Thanks for reaching out to Aqua Sierra for your aquatic needs. Let me know if you have any questions.

Sincerely,

**Greg Sayles** 

Fisheries Biologist

<sup>\*\$500</sup> minimum w/o delivery

<sup>\*</sup>payment for fish is COD

#### Roxborough Metro District Arborist Report 2/10/2021

We have pruning scheduled for the beginning of March. We will be saving a few pruning days after spring realizing there may be a bit of snow damage later in the spring.

The soil is exceptionally dry at the present time due to lack of precipitation and higher temperatures. Winter watering is recommended.

Other than that, the trees are looking pretty good at the present time.
